

Global Treatment going further

to offer you more choice when it
matters most

Nobody likes to think about it. But if you or one of your children were to become seriously ill, you'd want the option to access world leading experts and treatment centres for your condition. Provided by FURTHER, Global Treatment offers cover for you and your eligible family for 6 conditions and treatments.

Should you be faced with needing treatment for one of the 6 conditions or treatments covered, you can rely on the best option for you

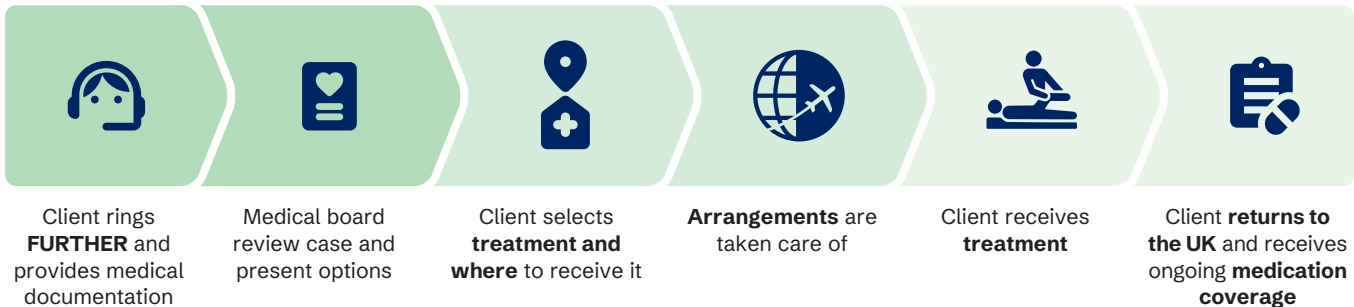

Global Treatment opens up options beyond what's available through the NHS or your private healthcare in the UK. With treatment options that could be more suitable to treat your specific condition or just may not be available at home.

- We're proud to offer Global Treatment as a chargeable additional option to our Critical Illness+, Life Insurance+ and Income Protection+ products. It offers you up to £1 million of cover per year up to a maximum of £2 million during the policy term.
- Global Treatment provides you with access to leading international facilities, doctors and treatments all over the world.
- Global Treatment is a three year renewable cover. Any changes to the price or cover at point of renewal will be shared in the renewal letter.

An end-to-end service is just the start

The process offers full navigation and support throughout the entire consultation and treatment process. If you are diagnosed with, or need treatment for one of the 6 conditions or treatments covered, it's our aim to give you more choice and a better chance at a positive outcome, quickly.

- After diagnosis, our trusted partner, FURTHER, assigns a dedicated case manager to your case.
- The FURTHER team then identifies the best hospital options for your specific case, where doctors will consult and provide you with treatment options.
- Patients will be able to select their preferred choice for treatment from the offered options.
- FURTHER will organise the hospital admission and payment of all related costs, including travel and 3-4 star accommodation for you and your companion. Your companion will receive a daily cash allowance of £100 to help with incidental expenses such as food, drink and transport.
- Upon return to the UK, the plan will cover ongoing medication costs up to £50,000 if they aren't covered by the NHS.
- If subsequent trips abroad are required for follow-up treatment, these are also covered by the plan (up to policy limits).

Giving people the power of choice at their most powerless

If you need treatment for one of the 6 conditions or treatments covered, it's our aim to give you more choice and a better chance at a positive outcome.

While you have access to treatment options through the NHS, or you may have some kind of private healthcare in the UK, with Global Treatment you can access options further afield too. With treatment options that can work alongside UK based treatment you are in control of your choices.

FURTHER will arrange all the logistics including travel, accommodation and medical appointments, so you don't have to.

Who's covered?

The life assured and their eligible children (up to age 18, or 21 in full time education) will be covered for overseas treatment. Hospital admission, travel and accommodation is covered for the patient plus a companion. If a child is ill, Global Treatment will pay expenses for both parents, or a parent plus a companion.

Which treatments are covered?

- Cancer treatment
- Coronary artery bypass surgery
- Heart valve replacement or repair
- Neurosurgery
- Live-donor organ transplants
- Bone marrow transplants

How do I claim?

To make a claim, call **0345 030 8071**
